

QPointer HandsFree

What You See Is What You Say

Commodio -
Freedom
of interaction

For people with special needs, who are dissatisfied with current computer access solutions, QPointer HandsFree provides complete and intuitive computer control by voice.

Unlike other existing voice products, QPointer HandsFree allows operation of any application and complete control over the Windows operating system. It has a short learning curve, is easy to use, powerful and affordable.

Use your voice with QPointer HandsFree to:

- Surf the Internet
- Write and send e-mail
- Create and edit documents
- Dictate directly into any Windows application
- Navigate entire Windows environment
- Point directly at any object on a computer screen
- Emulate the mouse and perform drag-and-drop operations
- Activate keyboard keys and shortcuts
- Customize your vocabulary

All this in a simple and intuitive way – *What You See Is What You Say*.

QPointer HandsFree is compatible with most AT applications, like screen enlargement software.

Try QPointer HandsFree with a 30-days money back guarantee!

Visit Commodio's Web site at <http://www.commodio.com> for more information.

QPointer Keyboard Navigator

Commodio -
Freedom
of interaction

For people looking for an alternative pointing device, QPointer Keyboard Navigator provides unique capabilities of keyboard-only operation of the whole computer.

With QPointer Keyboard Navigator, a regular keyboard turns into a direct pointing device and enables mouseless navigation without remembering long lists of keyboard shortcuts.

QPointer Keyboard Navigator is specifically designed for people having:

- Mouse-induced RSI
- Fine or gross motor dexterity problems
- Vision impairments
- Difficulty manipulating a mouse

QPointer Keyboard Navigator is compatible with all regular and ergonomic keyboards, as well as special keyboards such as BigKeys® and IntelliKeys®.

QPointer Keyboard Navigator is available for download and free 30-days trial.

Visit Commodio's Web site at <http://www.commodio.com> for more information.
